24-14 AWG Push-In Lever Type Wire Connectors

Features:

- Easy Push-In Wire Connectors are simple to install - instead of Twisting or Taping, simply Push Wires Into Contact Port to save you time and money
- Accepts Either Stranded or Solid Wire
- Low Wire Insertion Force allows fast, easy connections
- No-Twist Connection reduces repetitive motion fatigue
- See-thru for visual connection inspection
- Test Port for Continuity Testing

- Electrolytic Tin-Plated Internal Copper Bus for high conductivity
- Housing Material: Polycarbonate, UL 94V-2 flame retardant
- Current: 24A or 32A
- Voltage: 600V
- Working Temperature: 221°F (105°C)
- UL Listed for Copper Conductors only

24-12 AWG Push-In Lever Type Wire Connectors

DIMENSIONS = INCHES
